
Website hosting and maintenance

Website hosting

\$425/year + GST (paid annually) or \$50/month + GST (paid monthly)

Price quoted includes hosting of client website and staging site for testing purposes.

Website maintenance package options

Basic plan - \$65/month + GST

- Monthly updates to website backend software, including WordPress, plugins, and themes (this includes automatic backup, testing, error log checks with report sent to client post update)
- Weekly cloud backup of full website (includes database, uploads, themes, plugins, directories) to Google Drive or Dropbox
- Recovery of website files from backups, if needed.
- Restoration of website from back up files, if required.
- Weekly security scans for malware and suspicious content.

Premium plan - \$120/month + GST

- Weekly updates to website backend software, including WordPress, plugins, and themes (this includes automatic backup, testing, error log checks with report sent to client)
- Daily cloud backup of full website (includes database, uploads, themes, plugins, directories) to Google Drive or Dropbox
- Backups and updates to staging site as required.
- Recovery of website files from backups, if needed.
- Restoration of website from back up files, if required.
- Daily security scans (includes scans for malware, malicious files, trojans or suspicious code, if website or IP is generating spam, out of date or vulnerable plug-ins, scan forum posts for malicious URLs or suspicious content)
- Identified threats assessed and fixed / repaired.
- 2 hours per month for content updates to text, images, and other minor changes and to set up new class groups and course settings.

[Additional website support and content updates \(pro rata as required\)](#)

Any website support requests or major content updates after the first 2 hours per month of support time, above and beyond what is outlined in the quote above, will be charged at the standard hourly rate pro rata for support services of \$100 / hour + GST.
